

A How to Create

The Disappearing

Word List in the Smart Notebook

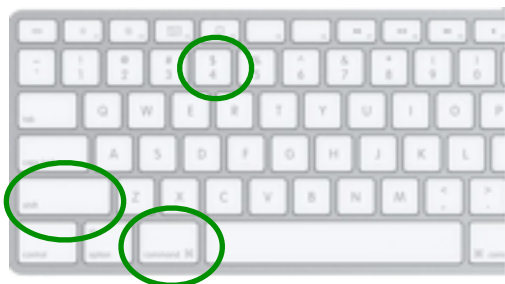

by - Katie Ann

www.wordle.net

Creating your List

- Step 1** - Create a list of words you want to use.
- Step 2** - Go to www.wordle.net
- Step 3** - Click on Create
- Step 4** - Enter your list of words in the field
- Step 5** - Click Submit when you are finished entering your words
- Step 6** - You will need to save your list as a picture
Hold down:
Shift key + Command + 4 key

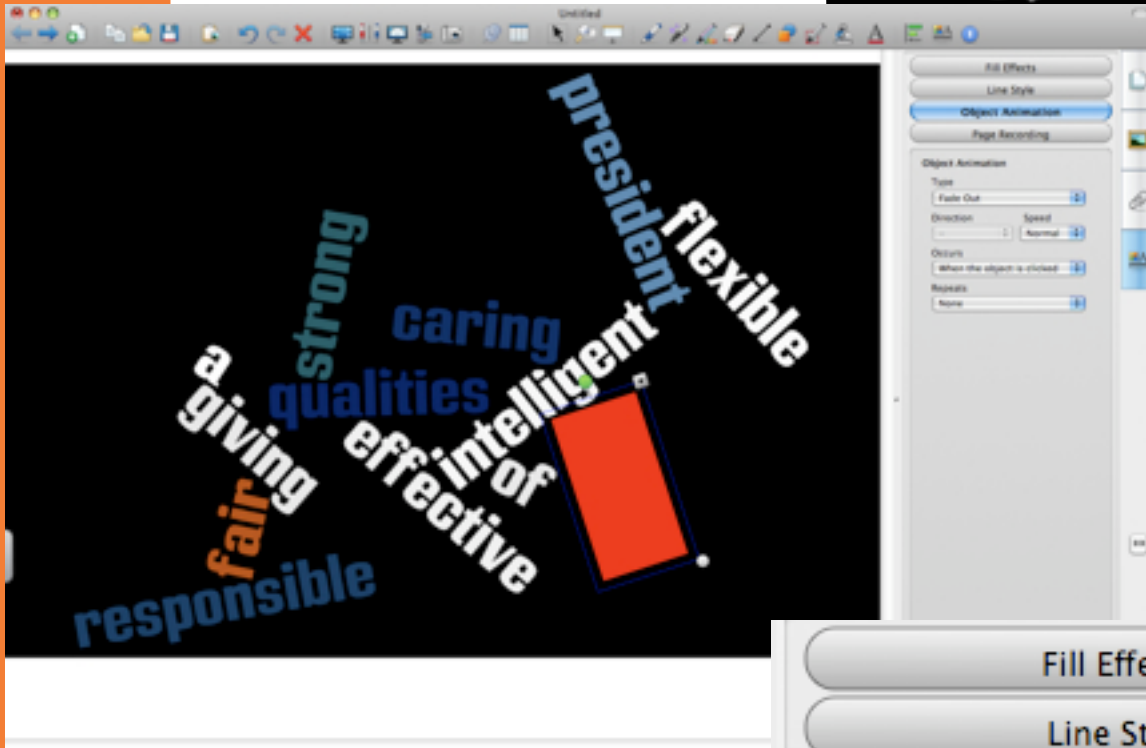

- Step 7** - Your cursor will change to a plus sign - drag a box around your image while holding down your mouse button. Then let go.

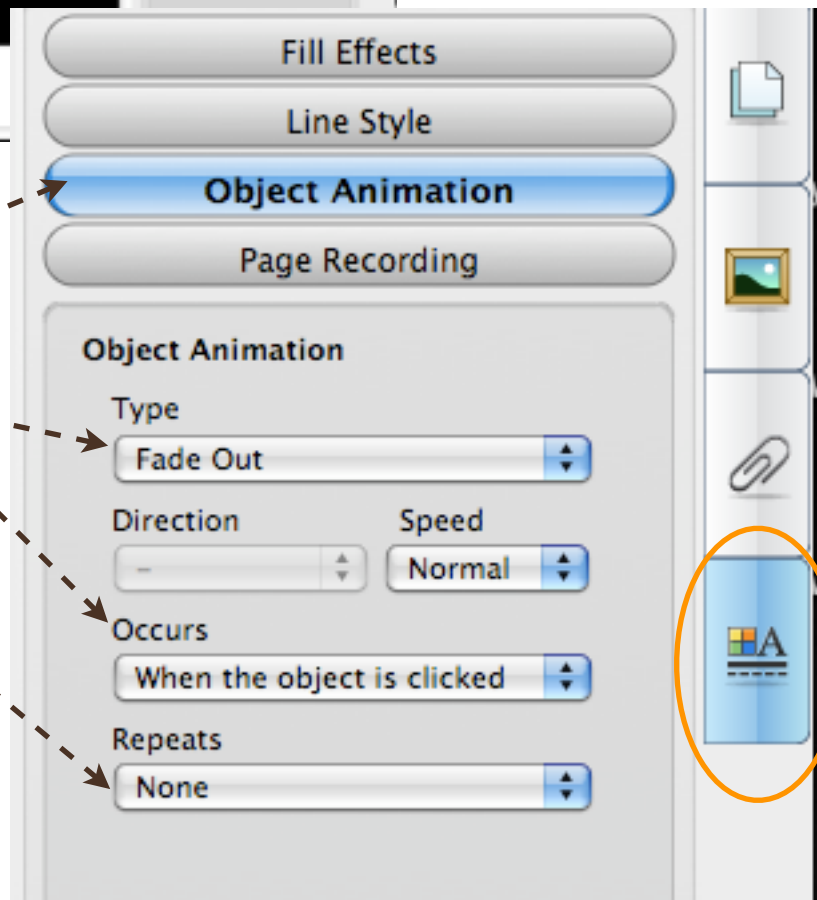

Making the Shapes disappear

- Step 1 - Open up the Smart Notebook software
- Step 2 - Drag & Drop your image on to a page within your Smart Notebook software
- Step 3 - Lock down your image where you want it
- Step 4 - Start making shapes to cover the words - you may need to rotate your shapes to cover your words

A short cut to locking down objects - Click on the object then hold down the command key and push the L key

- Step 5 - Click on your shape
 - Step 6 - Click on the properties tab
 - Step 7 - Click on Object Animation
 - Step 8 - For the Type choose Fade out
 - Step 9 - For Occurs choose When the object is clicked
 - Step 10 - For Repeats choose None
 - Step 11 - Lock down your shape
 - Step 12 - Repeat for each shape
- Last Step - Save your work
